Dear Board Members,

I have founded the Richard Hunt Legacy Foundation in hopes that what I have accomplished in my life will transcend my time on earth. I sincerely hope that people continue to find my art useful for whatever use they have of it. And more so, I hope that my art provides a way to improve their lives and the communities where they live.

As my mother often said, "Many hands make light work" and so I have gathered friends and family together to form a non-profit foundation. Many of you have so greatly enriched my life with your friendship. I hope that by bringing you all together there are opportunities to work together for the benefit of all.

My life has been spent creating sculptures made from metal. I chose that material because it was malleable but also because it was meant to last. I hope this foundation I have created will also last and yet be malleable enough to adapt to whatever lies ahead.

To my founding board members and members to come, I thank you all and hope you continue to encourage, inspire, facilitate, educate, and support the public's understanding of my art and the reasons why I created it.

Thank you, thank you,

A handwritten signature in black ink that reads "Richard Hunt". The signature is fluid and cursive, with the first name "Richard" and the last name "Hunt" clearly distinguishable.
